PROFESSIONAL SUMMARY

Computer Science graduate with hands-on experience in Java, Spring Boot, MySQL, and REST API development through academic and personal projects. Proficient in backend architecture, JWT-based authentication, and relational database design. Skilled in building responsive web interfaces with HTML, CSS, and JavaScript. Eager to contribute to high-impact engineering teams at product-based companies or startups as a Java/Backend/Full Stack Developer.

TECHNICAL SKILLS

Languages	Java · JavaScript · SQL
Frameworks	Spring Boot · REST APIs
Web Technologies	HTML5 · CSS3 · JavaScript
Database	MySQL · JDBC
Tools & Platforms	Git · GitHub · VS Code · Maven
Core Concepts	OOP · Data Structures · JWT Authentication · RBAC · Problem Solving

PROJECTS

Smart Examination Monitoring System (SEM)

Java · Spring Boot · MySQL · REST APIs · JWT

Role: Backend Developer

- Engineered RESTful backend services using Spring Boot with role-based access control (RBAC) for exam, user, and result management.
- Implemented JWT-based authentication and authorization, securing API endpoints against unauthorized access.
- Designed and optimized MySQL schema for efficient data retrieval; built timer-based auto-submit and exam-activity-tracking features.
- Developed modular REST APIs for exam creation, submission, and evaluation workflows, improving maintainability and scalability.

Secure Online E-Auction System using Blockchain

HTML · CSS · JavaScript · Python · Solidity · REST APIs

Role: Full Stack Developer

- Designed and deployed Solidity smart contracts to enforce tamper-proof bidding logic on a decentralized auction platform.
- Built Python-based backend handling CRUD operations via RESTful APIs with role-based access control for auction workflows.
- Developed responsive, real-time frontend interfaces using HTML5, CSS3, and JavaScript for seamless user interaction.

EDUCATION

B.Sc. Computer Science

CGPA: 8.42 / 10.0

Loyola Academy Degree and PG College, Hyderabad

May 2026
